Why INEX 2026?

Building on the remarkable success of INEX 2024, the exhibition continues to grow as the leading international platform for nuclear energy, technology, and business opportunities.

Key Figures from INEX 2024

101 Exhibitors from **10** Countries

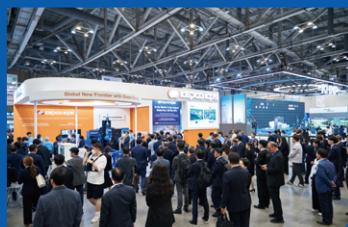

400 Booths
showcasing the latest innovations

14,503 Visitors
from around the world

120 Business Meetings generating USD **457** million in trade deals.

Co-located Events

INEX will be held alongside Korea's largest nuclear conference, **Korea Atomic Power Annual Conference(KAP)**, and the international academic conference **Pacific Basin Nuclear Conference(PBNC)**, attracting **over 1,000 nuclear industry experts and professionals** from Korea and abroad.

Pacific Basin Nuclear Conference (PBNC) is an international conference held biennially by the **Pacific Nuclear Council (PNC)**, which brings together nuclear organizations, academic societies, and associations from Pacific Rim countries. The conference aims to promote the peaceful use of nuclear energy and foster international cooperation across the region.

Korea Atomic Power Annual Conference (KAP) is the largest nuclear industry conference in Korea, held annually by the **Korea Atomic Industrial Forum (KAIIF)**, to discuss current industry trends and challenges and to provide a premier platform for networking among government, industry, academia, and research institutions.

INEX 2026

INTERNATIONAL NUCLEAR EXPO 2026

THE HOST CITY – BUSAN, REPUBLIC OF KOREA

Busan is the second-largest city in Korea. Blessed with a deep natural harbor and gentle tidal conditions, the city has grown into the nation's largest container-handling port and the fifth largest in the world. Building on its natural assets and rich cultural heritage, Busan has established itself as a world-class destination for tourism and culture, while steadily rising as a premier host city for international exhibitions and conventions.
