Hitachi GE Vernova Nuclear Energy, Ltd.

<https://www.hitachi-hgne.co.jp/en/>

BWRX-300

HI-ABWR
Highly Innovative ABWR

Products & Services

- BWR and ABWR restarts, preventive maintenance, and construction
- Fuel cycle
- Decommissioning
- BWRX-300 and HI-ABWR advanced reactors development

Strength

BWRX-300 Small Modular Reactor

- Developed by Hitachi and GE Vernova alliance in cooperation with global stakeholders
- Meets the needs of energy transition by a combination of proven design, innovations and simplifications

HI-ABWR Innovative Light Water Reactor

- Incorporates new safety mechanisms into the UK-ABWR, satisfying post-Fukushima regulations, UK and European regulatory requirements
- Ensures walk-away safety, minimizes radioactive release with advanced filtration, and enhances structural resilience against natural and terrorist threats

Delivery Records

Reactors: PWR BWR CANDU FBR Others

Toshiba Corporation

<https://www.global.toshiba/ww/products-solutions/nuclearenergy.html>

Products & Services

- Engineering, equipment delivery related Nuclear plant construction, Operation and Maintenance Services
- Total supplier from the concept design to O&M of nuclear island and turbine island

Strength

Toshiba core activities:

- A wide range of nuclear reactor and STG equipment as well as operation and maintenance (O&M) services to customers for both PWR and BWR.
- Experience in working to acquire nuclear license in the world
- A leading STG supplier for Gen III+ reactors
- Experience of STG equipment supply for Vogtle-3/4, and VC Summer-2/3 in USA.

Delivery Records

Reactors: PWR BWR FBR HTGR

Regions: US Europe Middle East Asia Japan

Location

Japan:
72-34, Horikawa-cho, Saiwai-ku, Kawasaki-shi, Kanagawa 212-8585, Japan

Keihin Product Operations:
2-4, Suehiro-cho, Tsurumi-ku, Yokohama, Kanagawa 230-0045, Japan

Mechanical (pressure vessels, steel structures, piping, etc.)

IHI
Realize your dreams

IHI Corporation

<https://www.ihico.jp/en/>

Products & Services

- NPP Primary Component
- Reactor Pressure Vessel
- Containment Vessel
- Structural Modules/Piping
- Heat Exchangers/Tanks
- System Engineering
- Nuclear Fuel cycle plant
- De-Contamination / De-Commissioning solutions

Strength

Renowned worldwide for engineering and manufacturing excellence in large-scale nuclear components, built on the valuable lessons learned through both the domestic and global projects.

The Key success factors,

- (1) Planning - With manufacturability, constructability and nuclear culture.
- (2) Full Communication - With customer, shop, constructor (including local players)

Delivery Records

Reactors: PWR BWR FBR HTGR

Regions: US Europe Asia Japan

Location

Head Office:
1-1, Toyosu 3-Chome, Koto-ku, Tokyo 135-8710, Japan

Engineering & Manufacturing:
1, Shin-nakahara-cho, Isogo-ku, Yokohama 235-8501 Japan

Quality Assurance

Kanadevia Corporation

<https://www.kanadevia.com/english/>

Products & Services

- Nuclear Fuel Cycling-Related Equipment
- Pressure Vessels
- Heat Exchangers

Strength

- Track record of more than 40 years in spent fuel transportation and storage casks in Japan.
- Production record of over 900 canisters to the US.
- Production record of deaerators to Vogtle 3/4 and Virgil C. Summer 2/3.
- Production record of more than 3,000 units of pressure vessels, 2,400 units of heat exchangers and 560 units of low alloy steel vessels around the world.

Delivery Records

Reactors: PWR BWR

Regions: US Canada Europe Middle East Asia
Japan

Location

Head office:
15th Floor, Omori Bellport 26-3, Minamioi 6-chome, Shinagawa-ku, Tokyo 140-0013, Japan

Engineering & Manufacturing:
1, Ariake, Nagasu-machi, Tamana-gun, Kumamoto 869-0113, Japan

SEO KOATSU KOGYO Co.,Ltd.

<https://www.seo-koatsu.co.jp/en/>

Products & Services

- **Forged steel products**
 - Piping Components
 - CASK Components
 - Pump Components
 - Valve Components
 - Others

- **Heat exchangers**
 - Heat Exchangers
 - Vessel
 - Piping

Strength

Forged steel products

- Extensive track record of supplying products for the nuclear industry, including power generation facilities, reprocessing plants, and storage and transportation equipment.
- Wide range of raw materials always in stock (carbon steel, low-alloy steel, stainless steel, nickel alloys, etc.)
- Integrated production system covering forging, heat treatment, machining, and testing and inspection.

Heat exchangers

- Integrated production system covering everything from basic and detailed design to manufacturing and inspection.
- Development and manufacturing of heat exchangers and pressure vessels, and prefabricated piping works.

Delivery Records

Reactors: PWR BWR HTGR FBR

Regions: Japan US Europe Asia ※ Heat exchangers: PWR and BWR (Japan only)

Location

JAPAN HEAD OFFICE:
Mitsubishi Juko Osaka Bldg. 5th
Floor, 1-3-20, Tosabori, Nishi-ku,
Osaka City, JAPAN

Forged steel products
ICHIKAWA WORKS:
69-20 Aza Kanzaki, Ichikawa-cho, Kanzaki-gun,
Hyogo Prefecture, JAPAN

Heat exchangers
MIKKAICHI WORKS:
9-10 Nishikatasoe-cho, Kawachinagano City,
Osaka Prefecture, JAPAN

Quality Assurance

KAJIMA CORPORATION

<https://www.kajima.co.jp/english/welcome.html>

Products & Services

- Construction (Civil Engineering and Building Construction)
- Real Estate Development
- Architectural Design
- Civil Engineering Design
- Engineering

Strength

- Proven track record in building/civil engineering, seismic design, and construction of new NPPs in Japan
- Extensive experience in providing technical supports in building/civil engineering and construction for the restart of Japanese NPPs and Fukushima decommissioning
- Experience in civil engineering, seismic design and construction planning, and licensing support for overseas nuclear projects

Delivery Records

Reactors: PWR BWR

Regions: Japan US Canada Europe Asia

Shimizu Corporation

<https://www.shimz.co.jp/en/>

Products & Services

- Building Construction
- Civil Engineering
- Overseas Construction
- Real Estate Development
- Engineering
- Green Energy Development

Strength

Shimizu's experience in overseas nuclear projects:

- Provided licensing and construction support for Gen III Reactors in Asia.
- Worked on obtaining Design Certification (DC) and Combined Operating License (COL) for Gen III and Gen III+ Reactors in the US.
- Played a key role in the acquisition of the Generic Design Assessment (GDA) for Gen III Reactors in the UK.
- Developed conceptual designs for operator selection of Gen III Reactors in Europe.

DAIDO CASTINGS Co., Ltd.

<http://www.d-cast.jp/index.html>

Products & Services

- General Casting Company
- Sand casting for crossing rail
- Centrifugal casting parts

Strength

- Using various casting methods, we produce sizes from grams to tons.
- [Investment Casting] The caunter gravity casting allows us to cast thin and complex shapes.
- [Sand Casting] The only company that produces Mn crossing rails used in Japanese bullet trains.
- Collaborate with parent company Daido Steel on R&D, sales, etc.

The Japan Steel Works, Ltd.

<https://www.jsw.co.jp/en/>

Products & Services

- Manufacturing steel forging material for
- Reactor Pressure Vessel
 - Pump Casing
 - Steam Generator
 - Turbine and Generator Rotor for nuclear power plant

Strength

- A lot of manufacturing records for nuclear power plant all over the world.
- The only company worldwide which manufactures extra-large steel forging material from over 600ton steel ingot.
- Capable of manufacturing forging material in which nozzles and/or flanges are integrated, which contributes to reduce inspection period during outage.

NIPPON STEEL CORPORATION

<https://www.nipponsteel.com/en/>

Products & Services

- Manufacturing Seamless Pipes and Tubes (especially Steam Generator Tubes)
- Flat and Long steel Products

Strength

- Abundant shipping record
- Wide range of materials and manufacturing possibilities
- Integrated production from casting to finished products
- Dimensional accuracy, surface smoothness
- worldwide network

Raw Materials

SILD
Cold Drawn Special Shaped Steel Bars

SILD CO., LTD.

<https://www.sild.co.jp/en/index.html>

Products & Services

- Manufacture of cold drawn finish special shaped steel products.
- Manufacturing of stainless steel products for control rods components of nuclear energy.

Strength

- We process steel materials with high yields through cold drawing, and have a track record of supplying products to a variety of fields, including nuclear power and generators.

Toyo Tanso Co., Ltd.

<https://www.toyotanso.com/>

Products & Services

- Production and sale of advanced carbon materials and related processing.

Strength

- Leading manufacturer of isotropic graphite
- Worldwide network of manufacturing and sales in the U.S., Asia, Europe etc.
- Our graphite material has been used in the HTTR of JAEA, and HTR-10, HTR-PM in China.
- Our carbon-carbon composite and graphite material are used in JT-60SA of QST.

Pipings

Benkan Kikoh Corporation

<https://www.benkankikoh.com/en/>

Products & Services

- Manufacturer of nuclear plants piping and components
- Butt Welding Fittings
- Forging Components
- Seamless Gas Cylinder

Strength

- A Japanese leader in the production of Butt-Welding Fittings and Seamless Gas Cylinders, renowned for offering a full range of high-quality products.
- The manufacturing of fittings and piping components has been a cornerstone since Japan's first nuclear power plant, advancing in tandem with the nation's nuclear technology.

MIYAWAKI INC.

<https://www.miyawaki-inc.co/en>

Products & Services

- Manufacturer of Steam Trap, Air/Gas Trap, Condensate Return Pump, PRVs, Manifolds, Hot Water Supply Systems
- Steam Trap Survey Service and Energy Saving Solution Provider

Strength

- With a 95-year legacy as a pioneer in steam trap technology in Japan, we offer a unique fusion of tradition and adaptive design.
- Our expertise spans extensive range of steam trap, allowing us to provide highly specialized technical proposals for any environment.
- We pride ourselves on a flexible, consultative design philosophy that ensures every product is perfectly aligned with the client's specific needs.

OKANO Valve Mfg. Co. Ltd.

<https://library.okano-valve.co.jp/english/>

Products & Services

- In-house Casting
- Valve manufacturer of Nuclear Power
- Valve manufacturer of Thermal Power
- Valve Maintenance
- Engineering Research and Development
- Diagnostic Technology Equipment

Strength

Global Excellence in Nuclear Valve Solutions:

OKANO's advanced valve systems have delivered critical valves, including Isolation Valves and Safety Relief Valves, for the core of critical applications, especially for Class 1 facilities, in all BWR plants, which collectively represent half of Japan's nuclear power generation capacity.

Unmatched End-to-End Manufacturing Expertise:

As a leading valve manufacturer, OKANO delivers high-precision custom design and manufacturing solutions, fully accommodating even the most specialized requirements. With exceptional expertise in material production, precision engineering, and dedicated after-sales support, we provide a unique combination of capabilities that ensures outstanding performance and long-term reliability throughout every stage of your process.

TLV CO., LTD.

<https://www.tlv.com/>

Products & Services

- Sales of Steam Traps, Air Traps, Air Vents, Check Valves and other special valves.
- Steam System Consulting, Engineering & Service

Strength

- The original manufacturer of the high-performance free-float steam trap.
- The only manufacturer capable of producing high-pressure float traps for power plants.
- Over 90% market share in Japan's nuclear power plants

TVE Co., Ltd.

<https://www.toavalve.co.jp/english/>

Products & Services

- Manufacturing and sale of various valves.
- Valve maintenance
- HIGH PRESSURE VALVES
- Manufacturing and sale of various cast products
- General valve
- Safety valve etc.

Strength

- Delivered more than 40,000 units of high-temperature, high-pressure valves in more than 40 countries around the world.
- Delivered to overseas PWR nuclear power plants.
- Experienced in valve design for the ABWR Horizon Project in the U.K..

NIPPON
 gear 

 Licensed by

Products & Services

- Valve Actuator (Nuclear Grade)
- Limit Switch (Nuclear Grade)
- Screw Jack
- Gear and Gear Box
- Mixer

Strength

- Outstanding track record of nuclear-grade valve actuator deliveries in Japan and South Korea
- Supplier of the world's most reliable LIMITORQUE actuators
- Comprehensive product lineup covering all applications inside and outside containment for both PWR and BWR
- In-house manufacturing of the actuator's most critical components — worm, spur, and bevel gears — to the highest quality standards
- Supply of nuclear-grade limit switches for a wide range of applications

Pump

KANSUI

KANSUI PUMP CO.,Ltd.

<https://www.kansui.com/>

Products & Services

- Pumps for radioactive waste treatment systems
- Horizontal volute sludge pumps
- Self-priming pumps for waste liquid
- High-capacity in-tank sludge agitation pumps
- Sludge Tank Agitation and Extraction pump
- Portable Pump Truck

Strength

- Equipment supplied to all PWR (Pressurized Water Reactor) and BWR (Boiling Water Reactor) nuclear power plants in Japan, with an approximately 90% market share in BWR radioactive waste (RW) treatment systems.
- An extensive track record of supplying self-priming pumps capable of a suction lift of approximately 9 meters for handling high-level radioactive liquid waste to the Japan Atomic Energy Agency (JAEA) and Japan Nuclear Fuel Limited (JNFL).
- A total of 30 pumps supplied to the North Anna and Surry nuclear power stations operated by Virginia Electric and Power Company (VEPCO) in the United States.
- An extensive track record of supplying portable pump vehicles for severe accident response.

Delivery Records

 Reactors: PWR BWR

TEIKOKU CORPORATION

<https://www.teikokucp.co.jp/english/>

Products & Services

- Canned Motor Pump
- Metering Pump

Strength

Our completely leak-tight "canned motor pump" has served us well as the main product in the group's core pump business. Because canned motor pumps employ a structure in which the pump and motor are integrated and the liquid being handled is sealed in, it boasts the feature of being completely leak-free.

Yokogawa Electric Corporation

<https://www.yokogawa.com/>

Products & Services

Control systems, Safety Instrumented Systems (SIS), field instruments, analyzers, recorders, and test & measurement instruments

Strength

- Globalization is essential for successful nuclear projects. Yokogawa delivers globally proven products with strong local support.
- We offer extensive worldwide project experience across nuclear and a wide range of process industries.
- Our portfolio includes products compliant with Safety Integrity Level (SIL) 2 and 3 in accordance with IEC 61508, supporting safe and reliable plant operation. Separately, Yokogawa recorders and controllers have been adopted by Element Nuclear for use in equipment qualification activities, demonstrating their reliability and quality under customer- and project-specific requirements.

NHK SPRING CO., LTD.

<https://www.nhkspg.co.jp/en/>

Products & Services

- pipe support system
- pipe stress and structural analysis

Strength

- NHK can support piping that runs throughout the nuclear power plant without restricting heat transfer
- NHK utilizes several types of analysis software for hardware, welding, steel materials, etc; to determine structural robustness and if pipes can withstand earthquakes

Tamagawa Seiki Co.,Ltd.

<https://www.tamagawa-seiki.com/>

Products & Services

- Products for nuclear power plant equipment
- Highly reliable and environmentally resistant angle sensors: Synchro and Resolver
- Customized servo motor equipped with various highly reliable sensors

Strength

- We provide angle sensor technology for nuclear power plants that offers high reliability, excellent environmental resistance, redundancy, and a long lifespan. And also, we offer customized servo motors equipped with these sensors.
- Over 50 years of experience in supply & technology for Nuclear Power related Projects in Japan.

INOUE CORPORATION

<https://www.kk-inoue.co.jp/en/>

Total coordination according to the application from procurement of materials to processing

From careful selection of ideal materials to processing of complicated conditions, we will support in all processes necessary for manufacturing

Processes

Cutting process
Laser / Plasma / water jet / band saw / saw cut
Electric discharge wire cut etc.

Machining process
Lathe (turning / perpendicular) / Milling / 5-face machining
Milling / Planer / Saw (slit / B&B) etc.

Sheet Metal Process
Press / Spinning / Spinning / Bending / Roll Forming
Hydraulic Forming / Bulge Forming etc.

Welding process
TIG welding / MIG welding / MAG welding
Automatic welding / Fiber laser welding
EBW welding etc.

Manufacturing items
Various welding assemblies

Form

Plate / coil
Rod / wire / section steel
Forged goods

Precision forged product
Metal powder etc.

Materials

Stainless steel / Titanium / Aluminum
Stripped copper parts
Ni alloy / Cr alloy (heat-resistant / corrosion-resistant / wear-resistant alloy)

Products & Services

Trading Company of Nuclear Grade Material, Parts and Equipment,

- Pipe/Fitting/Flange/Plate/Bar/Forging/Square Pipe and more
- Expansion Joint/Square pipe
- Valve/Pump/Piping/Expansion Joint/Safety system and more

Strength

- For manufacturers, we're a market-development partner—linking materials to the right industries.
- For our customers, we're a sourcing expert and a reliable co-pilot—always ready, always responsive.
- Through supply chain management that delivers value on both sides of the equation,
